

# sinclair ZX Spectrum

## SOFTWARE CATALOGUE

This catalogue describes a whole range of Sinclair ZX Spectrum software. These really excellent cassettes cover games, education, and business/household management. These programs make full use of the ZX Spectrum's 8 colours, sound generator, and high-resolution graphics.

All cassettes are available direct from Sinclair - and prices include VAT and post and packing.

**December 1982 edition.**

# Games

Racetrack, Labyrinth, Skittles

## Cassette G2/S: Games 2

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £4.95.  
Programs - Galactic Invasion. Drop a Brick. Silhouette Colour Doodle. Train Race.

## Cassette G3/S: Games 3

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £4.95.  
Programs - Mind the Meteors. Daylight Robbery. Battleships. Invisible Invader.

## Cassette G4/S: Games 4

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £4.95.  
Programs - Docking the Spaceship. Journey into Danger. Invasion from Jupiter. The Great Escape.

## Cassette G5/S: Games 5

- Hardware required - ZX Spectrum with 48K RAM only.  
Price - £4.95.  
Program - Star Trail.  
Description - Can you, as Captain Church of the UK spaceship Endeavour, rid the galaxy of the Klingon menace?

## Cassette G6/S: Pastimes 1

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £4.95.  
Programs - Solitaire. NIM. Find the Mate. Tower of Hanoi.

## Cassette G7/S: Pastimes 2

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £4.95.  
Programs - Secret Code. Mindboggling. Kim. Magic Square.

## Cassette G8/S: Biorhythms

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £6.95.  
Programs - Introduction to Biorhythms. Your Biorhythms.  
Description - When will you be at your peak (and trough) physically, emotionally, and intellectually?

## Cassette G9/S: Space Raiders

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £4.95.  
Program - Space Raiders.  
Description - The ZX Spectrum version of the popular pub/arcade game.

## Cassette G10/S: Chess

- Hardware required - ZX Spectrum with 48K RAM only.  
Price - £7.95.  
Program - Chess.  
Description - Fast, efficient machine code, a graphic display of the board and pieces, plus nine levels of ability, combine to make this one of the best chess programs available.

## Cassette G11/S: Flight Simulation

- Hardware required - ZX Spectrum with 48K RAM only.  
Price - £7.95.  
Program - Flight Simulation.  
Description - Simulates a highly manoeuvrable light aircraft with full controls, instrumentation, a view through the cockpit window, and navigational aids. Happy landings!

## Cassette G12/S: Planetoids

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £4.95.  
Programs - Planetoids. Missile.  
Description - Planetoids - deep in space, you and your ship encounter a massive asteroid storm. Destroy them with your lasers before they destroy you. And watch out for the alien saucer armed with cluster bombs. Missile - your satellite TV scanners pick up a multimegaton intercontinental ballistic missile - heading straight for you. In terrifying 3-D it gets closer and closer. Your only hope is a double laser.

## Cassette G13/S: Hungry Horace

- Hardware required - ZX Spectrum with 16K or 48K RAM.  
Price - £5.95.  
Program - Hungry Horace  
Description - Hungry Horace eats everything in the park. But look after Horace for the guards in the park are out to catch him. Maybe Horace can reach the alarm in the park and terrify the guards - or maybe he'll eat their lunch. An exciting, colourful and addictive game.

### **Cassette G14/S: Adventure A – Planet of Death**

Hardware required – ZX Spectrum with 16K or 48K RAM.

- Price – £6.95.  
Program – Planet of Death.  
Description – Stranded on an alien planet, you must escape by finding your captured space-ship. Danger lurks round every corner!

### **Cassette G15/S: Adventure B – Inca Curse**

Hardware required – ZX Spectrum with 48K RAM only.

- Price – £6.95.  
Program – Inca Curse.  
Description – You're in the South American jungle, near an as yet undisturbed Inca Temple packed with treasure. Can you recover the treasure and make it back to safety?

### **Cassette G16/S: Adventure C – The Ship of Doom**

Hardware required – ZX Spectrum with 48K RAM only.

- Price – £6.95.  
Program – The Ship of Doom.  
Description – An alien cruiser is seeking humanoid planets, to enslave the inhabitants and replace their brains with microchips. Can you escape and break the graviton grasp?

### **Cassette G17/S: Adventure D – Espionage Island**

Hardware required – ZX Spectrum with 48K RAM only.

- Price – £6.95.  
Program – Espionage Island.  
Description – Flying over a strange island, your engines fail. Can you survive and discover the island's secret? The natives are definitely *not* friendly!

### **Cassette G18/S: Reversi**

Hardware required – ZX Spectrum with 16K or 48K RAM.

- Price – £7.95.  
Program – Reversi (also known as Othello).  
Description – Reversi is a modern version of the late 19th Century board game, Othello. This major game of strategy can be played at nine levels – against the computer or a friend.

### **Cassette G19/S: The Hobbit**

Hardware required – ZX Spectrum with 48K RAM only.

- Price – £14.95.  
Program – The Hobbit, together with a copy of the famous novel.  
Description – A unique program published in association with the Tolkien estate. The adventure is set in the fantasy world described in J.R.R. Tolkien's brilliant novel. You can tackle the adventure in one of two ways. Either read the book first – and familiarise yourself with the characters. Or leap straight into the program, taking on the role of Bilbo – the Hobbit.

Either way, you'll encounter Gandalf the wizard, Thorin, Elrond, and the vicious Trolls. Danger and excitement are presented in words and graphics. And the entire program is capable of very sophisticated communications. You instruct the computer in perfectly normal English sentences!

## **Education**

### **Cassette E1/S: Fun to Learn series – History 1**

Hardware required – ZX Spectrum with 16K or 48K RAM.

- Price – £6.95.  
Programs – Events in British History. British Monarchs.  
Description – From 1066 to 1981, find out when important events occurred. Recognise monarchs in an identity parade.

### **Cassette E2/S: Fun to Learn series – Geography 1**

Hardware required – ZX Spectrum with 16K or 48K RAM.

- Price – £6.95.  
Programs – Towns in England and Wales. Countries and Capitals of Europe.  
Description – Your Spectrum shows you a map and list of towns. You locate the towns correctly. Or the Spectrum challenges you to name a pinpointed location.

### **Cassette E3/S: Fun to Learn series – Inventions 1**

- Hardware required – ZX Spectrum with 16K or 48K RAM.  
Price – £6.95.  
Programs – Earlier Inventions.  
Later Inventions.  
Description – Who invented television?  
What was the 'dangerous Lucifer'?

### **Cassette E4/S: Fun to Learn series – Music 1**

- Hardware required – ZX Spectrum with 16K or 48K RAM.  
Price – £6.95.  
Programs – Musicians. Composers.  
Description – Which instrument does James Galway play? Who composed 'Peter Grimes'?

### **Cassette E5/S: Fun to Learn series – English Literature 1**

- Hardware required – ZX Spectrum with 16K or 48K RAM.  
Price – £6.95.  
Programs – Novelists. Poets and Playwrights.  
Description – Which novelist do you associate with Father Brown? Which playwright also played cricket for England?

## **Business/household**

### **Cassette B1/S: VU-CALC**

- Hardware required – ZX Spectrum with 16K or 48K RAM.  
Price – £8.95.  
Program – VU-CALC.  
Description – Turn your ZX Spectrum into an immensely powerful analysis chart. VU-CALC constructs, generates and calculates large tables for applications such as financial analysis, budget sheets, projections etc. Complete with full instructions.

### **Cassette B2/S: VU-FILE**

- Hardware required – ZX Spectrum with 16K or 48K RAM.  
Price – £8.95.  
Programs – VU-FILE Gazetteer (example).  
Description – A general-purpose information storage and retrieval program with emphasis on user-friendliness and visual display. Use it to catalogue your collection, maintain records of club memberships, keep track of your accounts, or as a telephone directory.

### **Cassette B3/S: VU-3D**

- Hardware required – ZX Spectrum with 48K RAM only.  
Price – £9.95.  
Programs – VU-3D.  
Description – A very impressive three-dimensional modelling program. You can design or model an object and then examine it from different angles and perspectives. Zoom in on the detail, accurately displayed in colour and high resolution.

### **Cassette B4/S: Collector's Pack**

- Hardware required – ZX Spectrum with 48K RAM only.  
Price – £9.95.  
Program – Collector's pack, plus blank tape on side 2 for data storage.  
Description – This comprehensive program allows collectors of stamps, coins etc.) to hold at least 1500 records of up to 9 different items on one cassette. Keep your records up to date and sorted into order.

### **Cassette B5/S: Club Record Controller**

- Hardware required – ZX Spectrum with 48K RAM only.  
Price – £9.95.  
Program – Club Record Controller, plus blank tape on side 2 for data storage.  
Description – Enables clubs to hold and update records of at least 300 members. Allows for names, addresses, phone numbers plus up to nine lots of other information – e.g. type of membership and renewal date.

## ZX Printer – available now

Designed exclusively for use with the Sinclair ZX range of computers, the printer offers ZX Spectrum owners the full ASCII character set – including lower-case characters and high-resolution graphics.

A special feature is COPY which prints out exactly what is on the whole TV screen without the need for further instructions. Printing speed is 50 characters per second, with 32 characters per line and 9 lines per vertical inch.

The ZX Printer connects to the rear of your ZX Spectrum. A roll of paper (65ft long and 4in wide) is supplied, along with full instructions. Further supplies of paper are available in packs of five rolls.

## ZX Expansion Module – coming soon

This module incorporates the three functions of Microdrive controller, local area network, and RS232 interface. Connect it to your Spectrum and you can control up to eight Microdrives, communicate with other computers, and drive a wide range of printers.

The potential is enormous, and the module will be available in the early part of 1983 for around £30.

## The ZX Microdrive – coming soon

The new Microdrives, designed especially for the ZX Spectrum, are set to change the face of personal computing by providing mass on-line storage.

Each Microdrive can hold up to 100K bytes using a single interchangeable storage medium.

The transfer rate is 16K bytes per second, with an average access time of 3.5 seconds. And you'll be able to connect up to 8 Microdrives to your Spectrum via the ZX Expansion Module.

A remarkable breakthrough at a remarkable price. The Microdrives will be available in the early part of 1983 for around £50.
